I'm a Computer Engineering final year student with over 2.5 years of experience in software development, specializing in building robust applications across backend and mobile platforms. I have a strong foundation in engineering principles and a passion for leveraging technology to solve complex problems. Additionally, I am expanding my expertise as a junior Data Scientist, with a keen interest in applying data science and machine learning to real-world challenges.

Work/Internship Experience

AI/ML Intern	GOHZE LTD	March 2024 – Sep 2024
I contributed to building and maintaining real-world applications, including ZenFamilli , an app designed to facilitate purchases of essential products like gas, fuel, lubricants, solar kits, and catering products. The app's user-friendly interface ensures easy access to a wide range of products.		
Mobile App Dev inter	Skye8	Jun 2023 – Oct 2024
As a mobile app intern, I contributed to developing various applications, including FindHome , a mobile app designed to help people in and out of Bamenda find houses. My work involved building applications that addressed real-world problems and supported company operations.		
Full Stack Developer	Corextreme Technologies	March 2024 – August 2024
As a Full Stack Mobile App Developer, I collaborated with software engineers to utilize Python, Django, Flutter, and Firebase in building and maintaining various applications. I was instrumental in developing Padi , an app designed to help enterprises in Cameroon sell products.		
Software Developer	ZiloTech	Jan 2023 – June 2024
At ZiloTech, I was involved in developing multiple applications, including Bolo, which helps people find local jobs, and Z-Learn, an app designed to assist students in preparing for exams. My work encompassed various aspects of app development, from concept to deployment, enhancing functionality and user experience.		

Education and Certifications

- | | |
|--|------------|
| • Bachelor in Computer Engineering(NAHPI) | 2021 –2025 |
| • WorldQuant Data Science(https://www.credly.com/users/kongnyuy-tardzenyuy) | 2023 |
| • Higher Secondary Education (Class 12th), Lycee Bilingue de Bafoussam | 2018 –2020 |

Projects

- **Z-Learn App:** -Is an educational app that aids advance level students in University exam preparation
Google Play link: https://play.google.com/store/apps/details?id=com.zilotech.z_learns&hl=en
- **Agricma:** is a mobile app that facilitates agricultural business in Cameroon by enabling easy buying and selling of products. It offers comprehensive features to streamline transactions for both buyers and sellers.
- **zenfamili:** is a mobile app that simplifies purchasing essential products like gas, fuel, and catering supplies. It features a user-friendly interface, making it easy for users to access and order various products.

Volunteering

- **GDSC Lead, University of Bamenda 2024-2025:** Organize events, workshops, and activities to foster a vibrant tech community, coordinating initiatives to support student engagement and development.
- **Technical Assistant, WAAW Foundation University of Bamenda Chapter:** Provide technical support and assistance for the UBa chapter of the WAAW Foundation, contributing to the foundation's mission through technology-related tasks and support.
- **GDSC Mobile App Lead, University of Bamenda:** Led the development and management of the GDSC mobile app, overseeing its design, functionality, and user experience to enhance communication and engagement within the tech community at UBa.
